# GENERAL INFORMATION ABOUT Voluntary Organisations Project Scheme

---

## 1. Introduction

The Voluntary Organisations Project Scheme is managed and administered by the Malta Council for the Voluntary Sector (MCVS).

The Voluntary Organisations Project Scheme has an allocated fund of €700,000.00.

The call for e-applications is issued by the Malta Council for the Voluntary Sector (MCVS) under the Voluntary Organisations Projects Scheme herein referred to as VOPS. The guidelines for the VOPS are published on the Malta Council for the Voluntary Sector website [www.maltacvs.org](http://www.maltacvs.org) and the Funding Portal [www.vofunding.org.mt](http://www.vofunding.org.mt). The guidelines constitute an integral part of the call for proposals.

The **Voluntary Organisations Project Scheme (VOPS)** is designed to assist applicants looking for funding on projects that can make a real difference to their local communities.

### 1.1 Objectives

The general objectives establishing the VOPS Scheme are the following:

- a) To stimulate co-operation and networking between voluntary organisations.
- b) To provide a consultative forum that can effectively address issues related to the Voluntary Sector.
- c) To support the work of voluntary organisations as an integral part of civil society.
- d) To enhance the capacity building of voluntary organisations.
- e) To provide a platform from which to develop co-operation between voluntary organisations and the Government.
- f) To promote and encourage a culture of volunteering and the participation in volunteer activities among people, especially children and youths, as an aspect of personal and social development.
- g) To foster co-operation in the volunteer sector with local and international bodies, entities or other persons for the encouragement and promotion of the development of volunteering programmes, initiatives and activities.

- h) To encourage, in furtherance of the principle of subsidiary, non-governmental bodies and private entities or persons and local councils to contribute to the promotion of volunteering in Malta.

## 1.2. Eligible Actions

---

Enrolled Voluntary Organisations can submit to one of the following Actions:

**Action 1:** Supports *Project Based Initiatives*

**Action 2:** Supports *Infrastructural Projects*

**Action 3:** Supports *Research Projects*

**An enrolled Voluntary Organisation may only submit one application in only one of the above listed actions per deadline.**

## 1.3 Priorities

### 1.3.1 General Priorities

In addition to the above mentioned objectives the 2020 VOPS priorities are as follows:

- **Volunteering**

This priority is intended to encourage projects aimed at raising awareness of the value and importance of volunteering as a form of active engagement and as a tool to develop or improve competences for personal, social and professional development.

- **Poverty and Social Inclusion**

This priority is intended to encourage projects addressing the issues of poverty and marginalisation and hate speech by focusing on actions such as enhancing awareness and commitment amongst the Maltese society to make it more inclusive. In this context, special emphasis shall be placed on the inclusion of migrants, disabled young people, and other marginalised minorities in fulfilling their potential.

- **Education**

This priority is intended to encourage projects addressing the issues related to education with special focus on the support of marginalised and more challenged groups in the Maltese society.

- **Arts, Culture and Sports**

This priority is intended to encourage projects to address enhancements of awareness in artistic and cultural heritage amongst the Maltese society. Projects in the area of Culture and cultural heritage are also encouraged. Also projects should encourage local initiatives aimed in raising people's awareness of the sport sector, highlighting its contribution to healthy lifestyle and social development through an inclusive approach to fulfill the potential of the Maltese citizens.

### 1.3.2 Specific Priorities

**Action 1 - Project Based Initiatives:** The projects should have the main priority to have an identified date of commencement and date of termination, with the main focus to mostly invest the allocated funds in human capacity that supports the Voluntary Organisation and this same organization has to also demonstrate that through this project a sustainable programme will be created to address the needs of both the volunteers and the organisation.

**Action 2 - Infrastructural Projects:** The projects should have infrastructural priorities with a clear date of commencements and date of termination, whereby the infrastructural needs of the voluntary organisations are addressed through a complete and safe project. It is important that the Voluntary Organisations demonstrate safety measures within the implementation of this project and it should also demonstrate that these changes will be implemented in its completeness also keeping in mind that the co-financing element could be more that 20% of the total amount granted.

**Action 3 - Research Projects:** The project should have research priorities intended to encourage projects addressing research to compliment other priorities addressed in this call. Research can be carried out in regard to all aspects of the organisation such as capacity building, services, training and volunteering. The sector is constantly seeking to identify innovative approaches through an evidence based approach which will induce the organisations to become more effective and relevant towards societal needs.

## 8. How to develop a good project?

The 'Award criteria' table on page 9 lists the criteria against which the quality of a project will be assessed.

*Here is some advice which may help you to develop a good project.*

### 8.1 Quality of project design

#### a) Quality of the preparation phase

The preparation phase is of crucial importance for the success of a project. During this phase, the organisation should choose and commonly agree on a theme relevant to the organisation itself and to the local community. They should look at creating a well-structured programme of the activities by presenting a timetable, including working methods and the benefits of their project for the local community.

#### b) Quality of the activity programme

The activity programme should be linked to the objectives of the project, to the project outcomes and it should be clearly defined, realistic and balanced.

#### c) Quality of the marketing of the programme

The marketing programme should be linked to the activity programme and each activity should be communicated to the target population of the project and the Maltese general public (if possible). The disclaimer of the project should be included on all project material stating *“This project is funded through the Voluntary Organisations Project Scheme managed by the Malta Council for the Voluntary Sector on behalf of the Ministry for Education and Employment”*.

#### d) Quality of project content and methodology

- **Theme of the project**

The project should have a clearly identified theme and should reflect the interests and needs of participants. Some examples of potential project themes are art and culture, social exclusion, environment, heritage protection, youth information, European awareness, rural/urban development, health in the community, anti-racism/xenophobia, disability, support for the elderly, homelessness, migrants, equal opportunities, peer education, unemployment, sports, leisure, media and

communications, etc. The theme has to be translated into the concrete activities/outcomes.

- **Innovative creativity and entrepreneurship**

Within the context of the VOPS, the accent is put on promotion of innovative elements in the project. The project should aim at introducing, implementing and promoting innovative approaches. These innovative aspects may be related to the contents and objectives of the activity, the involvement of promoters from different backgrounds, creative and unexplored way of solving problems related to the community, experimentation with new methodologies and project formats or dissemination of the project results.

- **Active involvement of participants in the project**

The activity programme and working methods should aim to have an impact on the members of the organisation and on the Maltese community. The project should engage the active involvement of the members of the organisation and Maltese citizens possibly identified as target population of the activity. Participants should also be actively involved in the preparation and evaluation phases of the project as one of the project outcomes.

**e) Quality of infrastructural projects**

In the case of infrastructural projects an organisation must submit any related architectural and/or engineering supporting documentation. Where applicable permits from the relevant authorities must be sought prior to application and presented at application stage.

**f) Quality of project reach**

- **Impact, multiplier effect and follow-up**

The impact of VOPS should not be limited to the participants in the activity. Applicants should, as much as possible, involve other people (from the neighbourhood, local area, etc.) in the Activity.

- **Visibility of the project visibility of Voluntary Organisation Project Scheme**

Promoters should reflect together on measures aimed at enhancing the visibility of their project and the visibility of the VOPS. This measure is also linked to the marketing action of each activity in Annex 2. The creativity of applicants in

offering additional potential whilst disseminating information about the planned activity, and the opportunities offered by the VOPS will be highly scored in the evaluation process. Visibility measures mainly occur before and during the implementation of the initiative. Such measures can be divided into two broad categories:

- **Visibility of the project**

Beneficiaries and participants should 'publicize' the project - as well as its aims and objectives. In order to raise awareness of the project, the beneficiary could for example develop information material; send a mail shot or SMS mailing; prepare posters, stickers, promotional items (t-shirts, caps, pens, etc.); invite journalists to observe; issue 'press releases' or write articles for local papers, develop websites or newsletters; engage in social network activities such as creating a Facebook page; create an e-group, a web space, a photo-gallery or blog on the Internet.

- **Visibility of the Voluntary Organisations Project Scheme**

The compulsory use of the official logo of the VOPS should be included in all of the project material used for communication purposes (internal and external). The communication objectives should include a description of the multiplier effect of the Voluntary Organisations Project Scheme on the Maltese society, whilst also outlining the opportunities offered through the Scheme.

### **g) Quality of sustainability measure in the projects**

**Sustainability** is the process of maintaining change in a balanced fashion, in which the exploitation of resources, the direction of investments, the orientation of technological development and institutional change are all in harmony and enhance both current and future potential to meet human needs and aspirations. For many in the field, sustainability is defined through the following interconnected domains or pillars: environment, economic and social

Sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs. It is founded on three main pillars namely the economic, social and environmental pillars. Applicants are to demonstrate how their project positively contributes towards these three pillars and in particular how it maximises economic, social and environmental goals in order to enshrine the concept of sustainable

development. In addition, applicants are to demonstrate how their project contributes towards one or more of the Sustainable Development Goals (<https://www.un.org/sustainabledevelopment/sustainable-development-goals/>).

**c) Selection criteria**

The selection criteria enable the Voluntary Organisations Project Evaluation Committee to assess the applicant's financial and operational capacity to complete the proposed project.

This means that the applicant has stable and sufficient sources of funding, to maintain its activity throughout the project.

**e) Operational capacity**

This means that the applicant must show that it has the necessary people, skills competencies and motivation to complete the project. This constitutes a specific section of the e-application form.

The award criteria are indicators/outcomes that allow the Evaluation Board to evaluate the quality of projects submitted for grants. On the basis of these criteria, grants will be awarded to those projects which are maximizing and aligned to the overarching objectives of the VOPS.

The award criteria indicated in Part B of these Guidelines describe exactly which elements will be taken into consideration in order to assess the quality of the project.

## **9.2 Check the financial conditions**

### **a) Types of grant**

The grant under the VOPS is of a lump sum (fixed amounts) approach. The amount granted (contracted grant) is equivalent to a maximum of the 80% of the total amount of the project and shall not exceed the maximum amounts stated in section 3.4 of these guidelines. 40% of the contracted grant will be given to the beneficiary on the signing of the agreement, 40% will be given on the submission and verification of a satisfactory interim report and the final balance of 20% will be given to the beneficiary on closure of the project with submission of a satisfactory final report, and after verification of receipts of declared expenditure and other relevant documentation is verified.

### **b) Co-financing**

The VOPS grant shall finance 80% of the project costs to the maximum indicated in Article 3.2 and 3.4 of these guidelines. Should the total cost of the project exceeding the 100% amount as indicated in Article 3.4 of these guidelines the applicant may complement the sum granted through the voluntary organisation's own financial resources or by seeking private assistance.

Contributions in kind are considered an eligible source of co-financing. The value calculated for such contributions must not exceed:

- The costs actually borne and duly supported by accounting documents of the third parties who made these contributions to the beneficiary free of charge but bear the corresponding costs.
- The costs generally accepted on the market in question for the type of contribution concerned when no costs are borne.

### **c) No double-financing**

A project supported under the VOPS Scheme may not be in receipt of any other Government or European Union funding.

To avoid the risk of double-financing, the applicant must indicate in the relevant section of the e-application form, the sources and the amounts of any other funding received or applied for in the same financial year.

### 9.3 Fill in and submit the e-application form

Once the e-application form is submitted online, it is forwarded to the Voluntary Organisations Project Evaluation Committee.

In case of a group of Voluntary Organisations collaborating and consequently presenting one e-application form for a project, it is important that the e-application form outlines the leading Voluntary Organisation which has the role of the coordinator. The e-application is then forwarded to the Voluntary Organisations Project Evaluation Committee for the whole project on behalf of all the Voluntary Organisations. If the e-application is positively assessed and selected, the applicant established as coordinator will be the beneficiary of a single grant agreement proposed by the VOPS for the funding of the project.

#### a) E-application procedure

The eligibility criteria to be met regarding the procedure to be followed for the submission of a project are described in Part B of this Guide. Furthermore, the applicants must respect the provisions described below.

An e-application will be accepted only if:

1. Submitted via the correct e-application form which is completed in full.
2. It shows a budget in conformity with these Guidelines.
3. It is accompanied by all the requested additional documentation.
4. It is delivered by the stipulated deadline.

***Please note that applicants are eligible to apply for one action only falling under the same call.***

#### b) Use the official e-application form

E-applications must be submitted only online through the following link:  
[www.vofunding.org.mt](http://www.vofunding.org.mt)

#### c) Provide proof of your legal status

The **successful** applicants must be in enrolled and compliant with the Commissioner for the Voluntary Organisations.

#### **d) Estimated budget**

Any e-application which exceeds the maximum limits will not be automatically excluded but will be scaled down within the limits set by the Guidelines.

***No changes can be made after the e-application has been submitted.***

### **10. What happens once the e-application is submitted?**

All e-applications received by the Voluntary Organisations Project Evaluation Committee will undergo a selection procedure.

#### **10.1 The selection procedure**

The selection of e-applications is as follows:

1. All e-applications are checked against the eligibility criteria, the selection criteria and the exclusion criteria.
2. Those e-applications which have successfully passed these checks are evaluated by two independent external evaluators and ranked accordingly.
3. In case of a 15% or more variant between the final marks of the two External Evaluators, a third External Evaluator shall be asked to evaluate the project e-application.
4. In the case of a third evaluator, the two nearest marks and taken for average purpose and the third (furthest) mark is discarded.

***The process is described in Annex II titled Evaluation Process.***

#### **10.2 Decision**

Once the evaluation, including the verification of financial conditions, is completed, the Fund Officer prepares a ranking list of the final mark of each project according to the final marks issued by the External Evaluators.

The Voluntary Organisations Project Evaluation Committee shall endorse the final marks and decides on the projects to be granted funding, based on the ranking order list and the budget available.

### 10.3 Notification of award decisions

Applicants should, be notified with the results and these will be available online on [www.maltacvs.org](http://www.maltacvs.org).

All successful applicants will be informed in writing. On termination of the e-application procedure the documents including the e-application form and the scoring documents will not be returned to the applicant.

### 10.4 Appeal

Unsuccessful applicants have a right to appeal within five working days of the issue of the official results on the funding portal. An Appeals Board shall be appointed by the Voluntary Organisations Project Evaluation Committee to decide on the appeals. The decision of the Appeals Board is final and indisputable.

## 11. What happens if your e-application is approved?

### 11.1 Grant agreement

In the event of definitive approval by the Voluntary Organisations Project Evaluation Committee, a grant agreement is drawn up between the Malta Council for the Voluntary Sector and the beneficiary. The agreement is drawn up in Euros (€) with the details of the conditions and funding amount. The grant decision is a unilateral act awarding a subsidy to a beneficiary.

For projects approved by the Voluntary Organisations Project Evaluation Committee, it is intended that beneficiaries should receive the agreements for signature by the first quarter of 2020. This agreement must be signed and returned to the Malta Council for the Voluntary Sector (181, Melita Street).

### 11.2 Grant amount

Acceptance of an e-application does not necessarily constitute an undertaking to award funding equal to the amount requested by the applicant (this funding could be reduced). The awarding of a grant does not establish an entitlement for subsequent years.

It should be noted that the grant amount foreseen by the agreement is to be considered as a maximum which cannot be increased in any circumstances.

Furthermore, the amount allocated may not exceed the amount requested.

### 11.3 Eligible costs

In order to be eligible under this VOPS, costs must:

- Be necessary for the implementation of the project.
- Be included in the provisional budget attached to the agreement.
- Be consistent with the principles of sound financial management, in terms of value for money and cost-effectiveness.
- Be incurred during the lifetime of the project as defined in the agreement.
- Be truly and actually incurred by the beneficiary.
- Be recorded in the beneficiary's accounts in accordance with applicable accounting principles.
- Be deposited in a standalone account.
- Be declared in accordance with the requirements of the applicable tax and social security legislation.
- Be identifiable and verifiable, and be backed up by original supporting documents.
- Be innovative and not a repeat of previously approved projects by the same organisation.

#### 11.3.1 Eligible direct costs

Eligible direct costs are costs which, with due regard for the conditions of eligibility set out above, are identifiable as specific costs directly linked to the performance of the project and which can therefore be booked to it directly. The following are the parameters to follow whilst preparing the costs for the VOPS project:

- Staff costs are eligible but are limited to a maximum of 10% of the allocated total direct cost (only applicable for Project Management).
- In case the Voluntary Organization proves that the staff recruited onto the project was previously employed with the same organization, no procurement procedures are needed in the adjudication of the services rendered. However, the employment history of the employee must be submitted.

If the VO is utilising its own members/ employees beyond Project Management, they need to pre inform MCVS and give evidence that the person has competences in the specific area of the deliverable.

If the person is an external provider (not employed with the VO), a VAT receipt must be submitted.

- Infrastructural costs are eligible but are limited to a maximum of 25% of the total allocated direct costs under Action 1 and Action 3. This term is not applicable for Action 2.
- Hospitality (catering) costs are eligible but are limited to a maximum of the following ceilings:
  1. Up to 10% of the allocated total direct cost if the funds approved are up to €10,000.00;
  2. Up to 5% of the allocated total direct cost if the funds approved are between €10,001.00 up to €20,000.00;
  3. Catering is only approved if distributed during project launching, conferences and formal meetings related to the project.
- Marketing costs such as newspaper, leaflets, posters, banners, roll ups, Facebook, radio and television advertisement are eligible but are limited to a maximum of 15% of the allocated total direct cost.
- Indirect costs should amount to a maximum of 5% of the total amount requested. The indirect costs represent the beneficiary's general administrative costs which can be regarded as chargeable to the project such as postage, photocopying etc. Indirect costs may not include costs already entered under another budget heading. If the Voluntary Organization proves that these costs were daily running organizational costs prior to the commencement of the project, no procurement procedures are needed in the adjudication of the same services or costs rendered or declared as indirect costs onto the project.

***Important to note that if Budget parameters are not respected throughout the e-application form the project will not be deemed eligible in the final ranking list.***

## 11.4 Payment procedures

### a) Procedure with one pre-financing installment

The projects supported under the VOPS will be subject to a payment procedure consisting of one pre-financing payment, an interim payment and a final payment/recovery of the balance due, as described below:

**b) Pre-financing payment**

A pre-financing payment of 40% will be transferred to the beneficiary within 30 days of the date when the last of the two parties signs the agreement. Pre-financing is intended to provide the beneficiary with a float.

**c) Interim payment**

An interim payment of 40% will be transferred to the beneficiary within 30 days of the date of the satisfactory delivery of the interim report. The report shall be presented in a typed format either in soft or hard copy.

**d) Payment or recovery of the balance**

1. The amount of the final payment to be made to the beneficiary will be established on the basis of a final report to be submitted within one month following the end date of the project. The report shall be presented in a typed format either in soft or hard copy.
2. The beneficiary must provide documents giving evidence that the activities organised with the support of the VOPS funding effectively took place. These shall include:
  - a. A final report on the implementation of the project.
  - b. A final detailed financial statement of eligible costs actually incurred, following the structure of the estimated budget, which justifies the funding requested expressed as a percentage of the eligible costs actually incurred.
  - c. A full summary statement of the actual receipts and expenditure of the project.
  - d. Full justification of the costs incurred (including quotations where applicable), original invoices, cash sales and VAT receipts.
  - e. Achievements to be described in final report.
  - f. In the case of Action 3 (Infrastructural) an engineer's/architect's work certification.

Grants awarded in the course of a financial year must be published on the website of the Malta Council for the Voluntary Sector during the first half of the year following the closure of the financial year for which they were awarded. - Name and address of the beneficiary.
- Purpose of the grant.
- Amount awarded and rate of funding.

## 12.5 Publicity

Apart from the measures foreseen for the visibility of the project and for the dissemination and exploitation of its results (which are award criteria), there is an

obligation of minimal publicity for each granted project. Beneficiaries must clearly acknowledge the Ministry for Education and Employment, the Malta Council for the Voluntary Sector and the VOPS in all communications or publications, in whatever form or whatever medium, including the Internet, or on the occasion of activities for which the grant is used.

This must be done according to the following instructions:

A granted project may be subject to monitoring visits. The beneficiary will undertake, with the signature of its legal representative, to provide proof that the grant has been used correctly. The Malta Council for the Voluntary Sector on behalf of the Ministry for Education and Employment may itself check or appoint an authorised delegate to audit the implementation procedures of the grant at any time during the term of the agreement. Such audits may be carried out up to 24 months from the date of the signing of the Grant Agreement. Consequently all documentation pertaining to this project including copies of invoices and fiscal receipts (VAT) should be retained for audit purposes. Original of invoices and fiscal receipts (VAT) shall be submitted to MCVS with the final report.

## 12.7 Recovery of Funds

The audit conclusions may necessitate that the Grant Award, in full or in part, be recovered from the applicant Voluntary Organisation due to a failure to honour one or more of the conditions stated in the Grant Agreement.

Recovery may also be applied in the case of underutilization/wrong utilization of the previously advanced funds.

## 12.8 Data protection
