7. How to develop a good project?

The 'Award criteria' table referred to on page 10 lists the criteria against which the quality of a project will be assessed.

Here is some advice which may help you to develop a good project.

7.1 Quality of project design

a) Quality of the preparation phase

The preparation phase is of crucial importance for the success of a project. During this phase, the organisation should choose and commonly agree on a theme relevant to the organisation itself and to the local community. They

should look at creating a well-structured programme of the activities by presenting a timetable, including working methods and the benefits of their project for the local community.

b) Quality of the activity programme

The activity programme should be linked to the objectives of the project, to the project outcomes and it should be clearly defined, realistic and balanced.

c) Quality of the marketing of the programme

The marketing programme should be linked to the activity programme and each activity should be communicated to the target population of the project and the Maltese public (if possible). The disclaimer as per latest marketing guidelines should be included on all project material.

d) Quality of project content and methodology

- **Theme of the project**

The project should have a clearly identified theme and should reflect the interests and needs of participants. Some examples of potential project themes are art and culture, social exclusion, environment, heritage protection, youth information, European awareness, rural/urban development, health in the community, anti-racism/xenophobia, disability, support for the elderly, homelessness, migrants, equal opportunities, peer education, unemployment, sports, leisure, media, and communications, etc. The theme must be translated into the concrete activities/outcomes.

- **Innovative creativity and entrepreneurship**

Within the context of the VOPS, the prerequisite is put on promotion of innovative elements in the project. The project should aim at introducing, implementing, and promoting innovative approaches. These innovative aspects may be related to the contents and objectives of the activity, the involvement of promoters from different backgrounds, creative and unexplored way of solving problems related to the community, experimentation with new methodologies and project formats or dissemination of the project results.

- **Active involvement of participants in the project**

The activity programme and working methods should aim to have an impact on the members of the organisation and on the Maltese community. The project should engage the active involvement of the members of the organisation and Maltese citizens possibly identified as target population of the activity. Participants should also be actively involved in the preparation and evaluation phases of the project as one of the project outcomes.

e) Quality of infrastructural projects

In the case of infrastructural projects an organisation must submit any related architectural and/or engineering supporting documentation (Architect Report / Damage Report / Bill of quantity). Where applicable permits from the relevant authorities must be sought prior to application and presented at application stage.

f) Quality of project reach

- **Impact, multiplier effect and follow-up**

The impact of VOPS should not be limited to the participants in the activity. Applicants should, as much as possible, involve other people (from the neighbourhood, local area, from fewer opportunities etc.) in the Activity. It is important that the impact is quantified in the 'Summary of the Project'

- **Visibility of the project visibility of Voluntary Organisation Project Scheme**

Promoters should reflect together on measures aimed at enhancing the visibility of their project and the visibility of the VOPS. This measure is also linked to the marketing action of each activity. The creativity of applicants in offering additional potential whilst disseminating information about the planned activity, and the opportunities offered by the VOPS will be highly scored in the evaluation process. Visibility measures mainly occur before and during the implementation of the initiative. Such measures can be divided into two broad categories:

- **Visibility of the project**

Beneficiaries and participants should 'publicise' the project - as well as its aims and objectives. To raise awareness of the project, the beneficiary could for example develop information material; send a mail shot or SMS mailing; prepare posters, stickers, promotional items (t-shirts, caps, pens, etc.); invite journalists to observe; issue 'press releases' or write articles for local papers, develop websites or newsletters; engage in social network activities such as creating a Facebook page; a web space, a photo-gallery or blog on the Internet.

- **Visibility of the Voluntary Organisations Project Scheme**

The compulsory use of the official logo of the VOPS should be included in all the project material used for communication purposes (internal and external). The communication objectives should include a description of the multiplier effect of the Voluntary Organisations Project Scheme on the Maltese society, whilst also outlining the opportunities offered through the Scheme.

g) Impact and long-term sustainability

- Funded projects are to have a well-defined impact & long-term sustainability plan in place. Sustainability means the continuation of project deliverables and sustenance of project outcomes after the initial/primary grant expires. The Voluntary organisation is to devise a strategy to continue to perform and deliver project benefits to the primary target group for at least 2 years after the funding from MCVS has been consumed and project has been successfully terminated.

The award criteria indicated in Part B of these Guidelines describe exactly which elements will be taken into consideration to assess the quality of the project.

8.2 Check the financial conditions

a) Types of grants

The grant under the VOPS is of a lump sum (fixed amounts) approach. The amount granted (contracted grant) is equivalent to a maximum of the 80% of the total amount of the project and shall not exceed the maximum amounts stated in section 1.5 of these guidelines. 20% of the contracted grant will be given to the beneficiary on submitting a satisfactory Budget Breakdown and the signing of the agreement, 40% will be given on the submission and verification of a satisfactory quarterly report, 20% will be given on the submission and verification of a satisfactory interim report and the final balance of 20% will be given to the beneficiary on closure of the project with submission of a satisfactory final report.

- The costs generally accepted on the market in question for the type of contribution concerned when no costs are borne.

c) No double-financing

A project supported under the VOPS Scheme may not be in receipt of any other Government or European Union funding.

To avoid the risk of double-financing, the applicant must indicate in the relevant section of the e-application form, the sources and the amounts of any other funding received or applied for in the same financial year.

8.3 Fill in and submit the e-application form

a) E-application procedure

The eligibility criteria to be met regarding the procedure to be followed for the submission of a project are described in Part B of this Guide. Furthermore, the applicants must respect the provisions described below.

d) Estimated budget

E-applications must include a detailed estimated budget (included in the e-application form) in which all prices are given in Euro (€).

Any e-application which exceeds the maximum limits will not be automatically excluded but will be scaled down within the limits set by the Guidelines.

9. What happens once the e-application is submitted?

All e-applications received under the Voluntary Organisations Project Scheme will undergo a selection procedure as per article 4 of these Guidelines.

10. What happens if your e-application is approved?

10.1 Deliverables and Detailed Budget

Once results are issued, and the list of projects is published, the applicant will be contacted to provide the following:

10.2 Grant agreement

In the event of definitive approval by the Voluntary Organisations Project Evaluation Committee, a grant agreement is drawn up between the Malta Council for the Voluntary Sector and the beneficiary. The agreement is drawn up in Euros (€) with the details of the conditions and funding amount. The grant decision is a unilateral act awarding a subsidy to a beneficiary.

For projects approved by the Voluntary Organisations Project Evaluation Committee, it is intended that beneficiaries should receive the agreements for signature by the first quarter of 2025. This agreement must be signed and returned to the Malta Council for the Voluntary Sector.

10.3 Grant amount

Acceptance of an e-application does not necessarily constitute an undertaking to award funding equal to the amount requested by the applicant (this funding could be reduced). The awarding of a grant does not establish an entitlement for subsequent years.

It should be noted that the grant amount foreseen by the agreement is to be considered as a maximum which cannot be increased in any circumstances.

Furthermore, the amount allocated may not exceed the amount requested.

The following are the parameters to follow whilst preparing the costs for the VOPS project:

- Staff costs are eligible but are limited to a maximum of 10% of the allocated total direct cost (only applicable for Project Management).

- In case the Voluntary Organisation can prove that the staff recruited onto the project are currently employed with the same organisation, no procurement procedures are needed in the adjudication of the services rendered. However, the employment history of the employee must be submitted.
- If the VO is utilising its own members/ employees beyond Project Management, they need to pre inform MCVS and give evidence that the person has competences in the specific area of the deliverable and that the fee is within marketing value. No administrator, legal representative of the organisation or the contact person of the project can be a paid-up service provider for the project.
- If the person is an external provider (not employed with the VO), a VAT receipt must be submitted.
